Practical Updates in Primary Care

Our mission is to provide real-world education for primary care professionals.

In an ever-changing world, Practical Updates in Primary Care recognizes the need for more flexible education opportunities. This year, we are excited to announce the continuation of our Virtual Series—a premier, fully online experience. Powered by Consultant 360, the leading digital resource for practical clinical advice for primary care providers, this virtual meeting series will deliver broad, practical education on a range of issues commonly seen and treated in today's primary care setting.

Practical Updates in Primary Care is focused on addressing the needs of early career and forward-thinking primary care professionals through clinical updates, case studies, role playing, and sharing of evidence-based approaches, combined with unique opportunities to network with renowned faculty and peers. Attendees will also use the virtual experience to improve their patient care in part by exploring the Exhibit Hall, Innovation Theaters, and promotional opportunities to research products and services that may assist them.

The virtual series will cover today's most pressing topics, including neurosciences, cardiometabolic syndromes, immunology, inflammation, and more. Faculty will be leading primary care clinicians, specialists, and other thought leaders from across the country to gain practical updates and shared best practices through live Q&A, panel discussions, and a virtual exhibit hall delivered in each 3-day series.

Learners who participate in the Practical Updates in Primary Care Virtual Series will receive:

- 3 Days of Live, Transformative Education
- 20+ Available CEUs
- 30+ Expert Faculty
- Innovation Theaters
- Exhibit Hall
- Networking Opportunities
- On-Demand Access Available with Upgraded Packages

Shape the future of primary care by supporting this exciting endeavor!
